
Contents

A list of what is discussed in each chapter

INTRODUCTION

NOTE ABOUT THIS NEW EDITION

WORDS TO THE VILLAGE HEALTH WORKER (Brown Pages)w1

- Health Needs and Human Needs **w2**
- Many Things Relate to Health Care **w7**
- Take a Good Look at Your Community **w8**
- Using Local Resources to Meet Needs **w12**
- Deciding What to Do and Where to Begin **w13**
- Trying a New Idea **w15**
- A Balance Between People and Land **w16**
- A Balance Between Prevention and Treatment **w17**
- Sensible and Limited Use of Medicines **w18**
- Finding Out What Progress Has Been Made **w20**
- Teaching and Learning Together **w21**
- Tools for Teaching **w22**
- Making the Best Use of This Book **w28**

Chapter 1

HOME CURES AND POPULAR BELIEFS 1

- Home Cures That Help **1**
- Beliefs That Can Make People Well **2**
- Beliefs That Can Make People Sick **4**
- Witchcraft—Black Magic—and the Evil Eye **5**
- Questions and Answers **6**
- Sunken Fontanel or Soft Spot **9**
- Ways to Tell Whether a Home Remedy Works or Not **10**
- Medicinal Plants **12**
- Homemade Casts—for Broken Bones **14**
- Enemas, Laxatives, and Purges **15**

Chapter 2

SICKNESSES THAT ARE OFTEN CONFUSED 17

- What Causes Sickness? **17**
- Different Kinds of Sicknesses and Their Causes **18**
- Non-infectious Diseases **18**
- Infectious Diseases **19**
- Sicknesses That Are Hard to Tell Apart **20**
- Example of Local Names for Sicknesses **22**
- Misunderstanding Due to Confusion of Names **25**
- Confusion between Different Illnesses That Cause Fever **26**

Chapter 3

HOW TO EXAMINE A SICK PERSON 29

- Questions **29**
- General Condition of Health **30**
- Temperature **30**
- How to Use a Thermometer **31**
- Breathing (Respiration) **32**
- Pulse (Heartbeat) **32**
- Eyes **33**
- Ears **34**
- Skin **34**
- The Belly (Abdomen) **35**
- Muscles and Nerves **37**

Where There Is No Doctor 2015

Chapter 4

HOW TO TAKE CARE OF A SICK PERSON 39

The Comfort of the Sick Person **39**

Special Care for a Person Who Is Very Ill **40**

Liquids **40**

Food **41**

Cleanliness and Changing Position in Bed **41**

Watching for Changes **41**

Signs of Dangerous Illness **42**

When and How to Look for Medical Help **43**

What to Tell the Health Worker **43**

Patient Report **44**

Chapter 5

HEALING WITHOUT MEDICINES 45

Healing with Water **46**

When Water Is Better than Medicines **47**

Chapter 6

RIGHT AND WRONG USE OF MODERN MEDICINES. 49

Guidelines for the Use of Medicine **49**

When Should Medicine Not Be Taken? **54**

The Most Dangerous Misuse of Medicine **50**

Chapter 7

ANTIBIOTICS: WHAT THEY ARE AND HOW TO USE THEM 55

Guidelines for the Use of Antibiotics **56**

What to Do if an Antibiotic Does Not Seem to Help **57**

Importance of Limited Use of Antibiotics **58**

Chapter 8

HOW TO MEASURE AND GIVE MEDICINE 59

Medicine in Liquid Form **61**

How to Give Medicines to Small Children **62**

How to Take Medicines **63**

Dosage Instructions for Persons Who
Cannot Read **63**

Chapter 9

INSTRUCTIONS AND PRECAUTIONS FOR INJECTIONS. 65

When to Inject and When Not To **65**

Emergencies When It Is Important to Give
Injections **66**

Medicines Not to Inject **67**

Risks and Precautions **68**

Dangerous Reactions From Injecting Certain
Medicines **70**

Avoiding Serious Reactions to Penicillin **71**

How to Prepare a Syringe for Injection **72**

How to Inject **73**

How Injections Can Disable Children **74**

How to Sterilize Equipment **74**

Chapter 10

FIRST AID **75**

- Basic Cleanliness and Protection **75**
- Fever **75**
- Shock **77**
- Loss of Consciousness **78**
- When Something Gets Stuck in the Throat **79**
- Drowning **79**
- When Breathing Stops: Mouth-to-Mouth Breathing **80**
- Emergencies Caused by Heat **81**
- How to Control Bleeding from a Wound **82**
- How to Stop Nosebleeds **83**
- Cuts, Scrapes, and Small Wounds **84**
- Large Cuts: How to Close Them **85**
- Bandages **87**

- Infected Wounds **88**
- Bullet, Knife, and Other Serious Wounds **90**
- Emergency Problems of the Gut (Acute Abdomen) **93**
- Appendicitis, Peritonitis **94**
- Burns **96**
- Broken Bones (Fractures) **98**
- How to Move a Badly Injured Person **100**
- Dislocations (Bones Out of Place at a Joint) **101**
- Strains and Sprains **102**
- Poisoning **103**
- Snakebite **104**
- Other Poisonous Bites and Stings **106**

Chapter 11

NUTRITION: WHAT TO EAT TO BE HEALTHY **107**

- Sicknesses Caused by Not Eating Well **107**
- Why It Is Important to Eat Right **109**
- Preventing Malnutrition **109**
- Main Foods and Helper Foods **110**
- Eating Right to Stay Healthy **111**
- How to Recognize Malnutrition **112**
- Eating Better When You Do Not Have Much Money or Land **115**
- Where to Get Vitamins: In Pills or in Foods? **118**
- Things to Avoid in Our Diet **119**
- The Best Diet for Small Children **120**
- Harmful Ideas about Diet **123**

- Special Diets for Specific Health Problems **124**
- Anemia **124**
- Rickets **125**
- High Blood Pressure **125**
- People Who Are Too Heavy **126**
- Constipation **126**
- Diabetes **127**
- Acid Indigestion, Heartburn, and Stomach Ulcers **128**
- Goiter (A Swelling or Lump on the Throat) **130**

Chapter 12

PREVENTION: HOW TO AVOID MANY SICKNESSES **131**

- Cleanliness—and Problems from Lack of Cleanliness **131**
- Basic Guidelines of Cleanliness **133**
- Sanitation and Latrines **137**
- Worms and Other Intestinal Parasites **140**
- Roundworm (Ascaris) **140**
- Pinworm (Threadworm, Enterobius) **141**
- Whipworm (Trichuris) **142**
- Hookworm **142**
- Tapeworm **143**

- Trichinosis **144**
- Amebas **144**
- Giardia **145**
- Blood Flukes (Schistosomiasis, Bilharzia) **146**
- Vaccinations (Immunizations)—Simple, Sure Protection **147**
- Other Ways to Prevent Sickness and Injury **148**
- Habits That Affect Health **148**

Where There Is No Doctor 2015

Chapter 13

SOME VERY COMMON SICKNESSES 151

- Dehydration **151**
- Diarrhea and Dysentery **153**
- The Care of a Person with Acute Diarrhea **160**
- Vomiting **161**
- Headaches and Migraines **162**
- Colds and the Flu **163**
- Stuffy and Runny Noses **164**
- Sinus Trouble (Sinusitis) **165**
- Hay Fever (Allergic Rhinitis) **165**
- Allergic Reactions **166**
- Asthma **167**
- Cough **168**
- Bronchitis **170**
- Pneumonia **171**
- Hepatitis **172**
- Arthritis (Painful, Inflamed Joints) **173**
- Back Pain **173**
- Varicose Veins **175**
- Piles (Hemorrhoids) **175**
- Swelling of the Feet and Other Parts
of the Body **176**
- Hernia (Rupture) **177**
- Seizures (Fits, Convulsions) **178**

Chapter 14

SERIOUS ILLNESSES THAT NEED SPECIAL MEDICAL ATTENTION 179

- Tuberculosis (TB, Consumption) **179**
- Rabies **181**
- Tetanus (Lockjaw) **182**
- Meningitis **185**
- Malaria **186**
- Dengue (Breakbone Fever,
Dandy Fever) **187**
- Brucellosis (Undulant Fever, Malta Fever) **188**
- Typhoid Fever **188**
- Typhus **190**
- Leprosy (Hansen's Disease) **191**

Chapter 15

SKIN PROBLEMS 193

- General Rules for Treating Skin Problems **193**
- Instructions for Using Hot Compresses **195**
- Identifying Skin Problems **196**
- Scabies **199**
- Lice **200**
- Bedbugs **200**
- Ticks and Chiggers **201**
- Small Sores with Pus **201**
- Impetigo **202**
- Boils and Abscesses **202**
- Itching Rash, Welts, or Hives **203**
- Things That Cause Itching or Burning of the
Skin **204**
- Shingles (Herpes Zoster) **204**
- Ringworm, Tinea (Fungus Infections) **205**
- White Spots on the Face and Body **206**
- Mask of Pregnancy **207**
- Pellagra and Other Skin Problems Due
to Malnutrition **208**
- Warts (Verrucae) **210**
- Corns **210**
- Pimples and Blackheads (Acne) **211**
- Cancer of the Skin **211**
- Tuberculosis of the Skin or
Lymph Nodes **212**
- Erysipelas and Cellulitis **212**
- Gangrene (Gas Gangrene) **213**
- Ulcers of the Skin Caused by
Poor Circulation **213**
- Bed Sores **214**
- Skin Problems of Babies **215**
- Eczema
(Red Patches with Little Blisters) **216**
- Psoriasis **216**

Chapter 16

THE EYES **217**

- Danger Signs **217**
- Injuries to the Eye **218**
- How to Remove a Speck of Dirt from the Eye **218**
- Chemical Burns of the Eye **219**
- Red, Painful Eyes—Different Causes **219**
- 'Pink Eye' (Conjunctivitis) **219**
- Trachoma **220**
- Infected Eyes in Newborn Babies (Neonatal Conjunctivitis) **221**
- Iritis (Inflammation of the Iris) **221**
- Glaucoma **222**
- Infection of the Tear Sac (Dacryocystitis) **223**
- Trouble Seeing Clearly **223**
- Cross-Eyes and Wandering Eyes **223**
- Sty (Hordeolum) **224**
- Pterygium **224**
- A Scrape, Ulcer, or Scar on the Cornea **224**
- Bleeding in the White of the Eye **225**
- Bleeding Behind the Cornea (Hyphema) **225**
- Pus Behind the Cornea (Hypopyon) **225**
- Cataract **225**
- Night Blindness and Xerophthalmia **226**
- Spots or 'Floaters' Before the Eyes **227**
- Double Vision **227**
- River Blindness (Onchocerciasis) **227**

Chapter 17

THE TEETH, GUMS, AND MOUTH **229**

- Care of Teeth and Gums **229**
- If You Do Not Have a Toothbrush **230**
- Toothaches and Abscesses **231**
- Pyorrhea, a Disease of the Gums **231**
- Sores or Cracks at the Corners of the Mouth **232**
- White Patches or Spots in the Mouth **232**
- Cold Sores and Fever Blisters **232**

Chapter 18

THE URINARY SYSTEM AND THE GENITALS **233**

- Urinary Tract Infections **234**
- Kidney or Bladder Stones **235**
- Enlarged Prostate Gland **235**
- Diseases Spread by Sexual Contact (Sexually Transmitted Infections) **236**
- Gonorrhea (Clap, VD, the Drip) and Chlamydia **236**
- Syphilis **237**
- Bubos: Bursting Lymph Nodes in the Groin **238**
- Use of a Catheter to Drain Urine **239**
- Problems of Women **241**
- Vaginal Discharge **241**
- How a Woman Can Avoid Many Infections **242**
- Pain or Discomfort in a Woman's Belly **243**
- Men and Women Who Cannot Have Children (Infertility) **244**

Chapter 19

INFORMATION FOR MOTHERS AND MIDWIVES **245**

- The Menstrual Period (Monthly Bleeding in Women) **245**
- The Menopause (When Women Stop Having Periods) **246**
- Pregnancy **247**
- How to Stay Healthy during Pregnancy **247**
- Minor Problems during Pregnancy **248**
- Danger Signs in Pregnancy **249**
- Check-ups during Pregnancy (Prenatal Care) **250**

Where There Is No Doctor 2015

Record of Prenatal Care	253	Difficult Births	267
Things to Have Ready before the Birth	254	Tearing of the Birth Opening	269
Preparing for Birth	256	Care of the Newborn Baby	270
Signs That Show Labor Is Near	258	Illnesses of the Newborn	272
The Stages of Labor	259	The Mothers Health after Childbirth	276
Care of the Baby at Birth	262	Childbirth Fever	
Care of the Cut Cord (Navel)	263	(Infection after Giving Birth)	276
The Delivery of the Placenta (Afterbirth)	264	Care of the Breasts	277

Chapter 22

HEALTH AND SICKNESSES OF OLDER PEOPLE 323

- Summary of Health Problems Discussed in
Other Chapters **323**
- Other Important Illnesses of Old Age **325**
- Heart Trouble **325**
- Words to Younger Persons Who Want to
Stay Healthy When Older **326**
- Stroke (Apoplexy, Cerebro-Vascular
Accident, CVA) **327**

- Deafness **327**
- Loss of Sleep (Insomnia) **328**
- Diseases Found More Often in People
over Forty **328**
- Cirrhosis of the Liver **328**
- Gallbladder Problems **329**
- Accepting Death **330**

Chapter 23

THE MEDICINE KIT 331

- How to Care for Your Medicine Kit **332**
- Buying Supplies for the Medicine Kit **333**
- The Home Medicine Kit **334**

- The Village Medicine Kit **336**
- Words to the Village Storekeeper
(or Pharmacist) **338**

THE GREEN PAGES—The Uses, Dosage, and Precautions for Medicines 339

- List of Medicines in the Green Pages **341**
- Index of Medicines in the Green Pages **344**
- Information on Medicines **350**

ADDITIONAL INFORMATION 399

- HIV and AIDS **399**
- Sores on the Genitals **402**
- Circumcision and Excision **404**
- Special Care for Small, Early,
and Underweight Babies **405**
- Ear Wax **405**
- Leishmaniasis **406**

- Guinea Worm **406**
- Emergencies Caused by Cold **408**
- How to Measure Blood Pressure **410**
- Poisoning from Pesticides **412**
- Complications from Abortion **414**
- Drug Abuse and Addiction **416**

VOCABULARY—Explaining Difficult Words 419

ADDRESSES FOR TEACHING MATERIALS 429

INDEX (Yellow Pages) 433

- Dosage Instructions for Persons Who Cannot Read
- Patient Reports
- Other Books from Hesperian
- Information About Vital Signs

Introduction

This handbook has been written primarily for those who live far from medical centers, in places where there is no doctor. But even where there are doctors, people can and should take the lead in their own health care. So this book is for everyone who cares. It has been written in the belief that:

- 1. Health care is not only everyone's right, but everyone's responsibility.**
- 2. Informed self-care should be the main goal of any health program or activity.**
- 3. Ordinary people provided with clear, simple information can prevent and treat most common health problems in their own homes—earlier, cheaper, and often better than can doctors.**
- 4. Medical knowledge should not be the guarded secret of a select few, but should be freely shared by everyone.**
- 5. People with little formal education can be trusted as much as those with a lot. And they are just as smart.**
- 6. Basic health care should not be delivered, but encouraged.**

Clearly, a part of informed self-care is knowing one's own limits. Therefore guidelines are included not only for **what to do**, but for **when to seek help**. The book points out those cases when it is important to see or get advice from a health worker or doctor. But because doctors or health workers are not always nearby, the book also suggests **what to do in the meantime**—even for very serious problems.

This book has been written in fairly basic English, so that persons without much formal education (or whose first language is not English) can understand it. The language used is simple but, I hope, not childish. A few more difficult words have been used where they are appropriate or fit well. Usually they are used in ways that their meanings can be easily guessed. This way, those who read this book have a chance to increase their language skills as well as their medical skills.

Important words the reader may not understand are explained in a word list or *vocabulary* at the end of the book. The first time a word listed in the vocabulary is mentioned in a chapter it is usually written in *italics*.

Where There Is No Doctor was first written in Spanish for farm people in the mountains of Mexico where, years ago, the author helped form a health care network now run by the villagers themselves. *Where There Is No Doctor* has been translated into more than 80 languages and is used by village health workers in over 100 countries.

The first English edition was the result of many requests to adapt it for use in Africa and Asia. I received help and suggestions from persons with experience in many parts of the world. But the English edition seems to have lost much of the flavor and usefulness of the original Spanish edition, which was written for a specific area, and for people who have for years been my neighbors and friends. In rewriting the book to serve people in many parts of the world, it has in some ways become too general.

To be fully useful, this book should be adapted by persons familiar with the health needs, customs, special ways of healing, and local language of specific areas.

Persons or programs who wish to use this book, or portions of it, in preparing their own manuals and activities for villagers or health workers are encouraged to do so. We often grant permission at no charge, provided the parts reproduced are distributed free or at cost—not for profit. Please see the explanation online at www.hesperian.org/about/open-copyright, or contact us at permissions@hesperian.org to answer any questions. Our goal is to help you design a program that works for you, not to make money.

For local or regional health programs that do not have the resources for revising this book or preparing their own manuals, it is strongly suggested that if the present edition is used, leaflets or inserts be supplied with the book to provide additional information as needed.

In the **Green Pages** (the Uses, Dosage, and Precautions for Medicines) blank spaces have been left to write in common brand names and prices of medicines. Once again, local programs or organizations distributing the book would do well to make up a list of generic or low-cost brand names and prices, to be included with each copy of the book.

This book was written for anyone who wants to do something about his or her own and other people's health. However, it has been widely used as a training and work manual for community health workers. For this reason, an introductory section has been added for the health worker, making clear that **the health worker's first job is to share her knowledge and help educate people.**

Today in over-developed as well as under-developed countries, existing health care systems are in a state of crisis. Often, human needs are not being well met. There is too little fairness. Too much is in the hands of too few.

Let us hope that through a more generous sharing of knowledge, and through learning to use what is best in both traditional and modern ways of healing, people everywhere will develop a kinder, more sensible approach to caring—for their own health, and for each other.

Note about this New Edition

In this revised edition of *Where There is No Doctor*, we have added new information and updated old information, based on the latest scientific knowledge. Health care specialists from many parts of the world have generously given advice and suggestions.

When it would fit without having to change page numbers, we have added new information to the main part of the book. (This way, the numbering stays the same, so that page references in our other books, such as *Helping Health Workers Learn*, will still be correct.)

The **Additional Information** section at the end of the book (p. 399) has information about health problems of growing or special concern: HIV and AIDS, sores on the genitals, leishmaniasis, complications from abortion, guinea worm, and others. Here also are topics such as measuring blood pressure, misuse of pesticides, drug addiction, and a method of caring for early and underweight babies.

New ideas and information can be found throughout the book—medical knowledge is always changing! For example:

- **Nutrition** advice has changed. Experts used to tell mothers to give children more foods rich in proteins. But it is now known that what most poorly nourished children need is more energy-rich foods. Many low-cost energy foods, especially grains, provide enough protein *if the child eats enough of them*. Finding ways to give enough energy foods is now emphasized, instead of the ‘four food groups’. (See Chapter 11.)
- Advice for treatment of **stomach ulcer** is different nowadays. For years doctors recommended drinking lots of milk. But according to recent studies, it is better to drink lots of water, not milk. (See p. 129.)
- Knowledge about **special drinks for diarrhea** (oral rehydration therapy) has also changed. Not long ago experts thought that drinks made with sugar were best. But we now know that drinks made with cereals do more to prevent water loss, slow down diarrhea, and combat malnutrition than do sugar-based drinks or “ORS” packets. (See p. 152.)
- A section has been added on **sterilizing equipment**. This is important to prevent the spread of certain diseases, such as HIV. (See p. 74.)
- We have also added sections on **dengue** (p. 187), **sickle cell disease** (p. 321), and **contraceptive implants** (p. 290). Page 105 contains revised information about **treatment of snakebite**.
- See page 139 for details on building the fly-killing **VIP latrine**.

If you have suggestions for improving this book, please let us know. Your ideas are very important to us!

The **Green Pages** now include some additional medicines. This is because some diseases have become resistant to the medicines that were used in the past. So it is now harder to give simple medical advice for certain diseases—especially malaria, tuberculosis, typhoid, and sexually spread infections. Often we give several possibilities for treatment. But **for many infectious diseases you will need local advice** about which medicines are available and effective in your area.

In updating the information on medicines, we mostly include only those on the World Health Organization's *List of Essential Drugs*. (However we also discuss some widely used but dangerous medicines to give warnings and to discourage their use—see also pages 50 to 53.) In trying to cover health needs and variations in many parts of the world, we have listed more medicines than will be needed for any one area. To persons preparing adaptations of this book, we strongly suggest that the Green Pages be shortened and modified to meet the specific needs and treatment patterns in your country.

In this new edition of *Where There Is No Doctor* we continue to stress the value of traditional forms of healing, and have added some more “home remedies.” However, since many folk remedies depend on local plants and customs, we have added only a few which use commonly found items such as garlic. We hope those adapting this book will add home remedies useful to their area.

Community action is emphasized throughout this book. For example, today it is often not enough to explain to mothers that ‘breast is best’. Communities must organize to make sure that mothers are able to breastfeed their babies at work. Likewise, problems such as misuse of pesticides (p. 412), drug abuse (p. 416), and unsafe abortions (p. 414) are best solved by people working together to make their communities safer, healthier, and more fair.

**“Health for all” can be achieved only through the organized demand by people for greater equality in terms of land, wages, services, and basic rights.
More power to the people!**

Where There Is No Doctor 2015
