ORGANIZATIONS

Aidsmap

Produces and distributes clear, accurate, useful information about HIV and AIDS in more than 20 languages.

Aidsmap/NAM, Acorn House,
314-320 Gray's Inn Road, London,
WC1X 8DP
+44 (0)20 7837 6988
info@nam.org.uk
www.aidsmap.com/resources

APCA - African Palliative Care Assoc.

A pan-African organization working to reduce pain and suffering across Africa by advocating for access to palliative care medicines and practices at all levels.

APCA, Box 72518, Plot 95, Dr Gibbons Road, Makindye, Kampala, Uganda
+256 312 264 978
info@africanpalliativecare.org
<https://tinyurl.com/y7omwyud>

Health Books International (formerly Teaching Aids at Low Cost, TALC)

Distributes books, CDs, DVDs, downloads, teaching materials, and accessories to improve health in developing countries.

HBI, Barn B, New Barnes Mill,
Cottonmill Lane, St Albans,
Hertfordshire, AL1 2HA, UK
+44 (0)1582 380883
help@healthbooksinternational.org
www.healthbooksinternational.org

International HIV/AIDS Alliance

Works to reduce the impact and spread of HIV and provides technical and organizational support for community-based groups focused on women, children, and youth. Building Blocks and other resources are available in multiple languages.

International HIV/AIDS Alliance,
Preece House, 91-101 Davigdor Road,
Hove, BN3 1RE, UK
+44 (0)1273 718900
www.aidsalliance.org/resources

JAWS HIV/AIDS readers for children

A collection of easy-to-read, illustrated books to read to younger children, published by Pearson UK.

<https://tinyurl.com/yajpg7xa>

PATA - Pediatric Adolescent Treatment Africa (formerly Pediatric AIDS Treatment Africa)

Promotes collaborative learning and knowledge sharing among health providers caring for children and adolescents with HIV in 24 countries. They produce and distribute a variety of resources.

PATA, Building 20, Suite 204
Waverley Business Park Wyecroft Rd.,
Mowbray, Cape Town 8000,
South Africa
+27 21 447 9566
info@teampata.org
www.teampata.org

Plan International

Promotes children's rights and equality for girls worldwide. Local programs often focus on meeting the needs of children with disabilities.

Plan International, Dukes Court,
Block A, Duke Street, Woking,
Surrey GU21 5BH, UK
+44 (0)1483 755155
<https://tinyurl.com/ya3hbhpe>

REPSSI - Regional Psychosocial Support Initiative

Trains people and organizations in 13 Eastern and Southern African countries to understand and support the psychosocial needs of orphaned and vulnerable children. They develop materials, convene workshops and regional meetings, and have special programs for teachers and community members.

REPSSI, 266 West Ave, Unit 2,
Waterfront Office Park, Randburg,
2194, South Africa
+27 11 886 1581
info@repssi.org
www.repssi.org

Stepping Stones with Children and The Salamander Trust

A community program to help different genders and generations better communicate and advocate on sensitive issues, communicate honestly about HIV, and build mutual trust and support.

<https://tinyurl.com/ycqrpw8v>

TAC - Treatment Action Campaign

Founded to fight for access to HIV treatment, TAC forced the South African government to provide prevention medicines to mothers, and then universal HIV treatment. TAC represents users of the public healthcare system to get better care and better access to care. They publish HIV in Our Lives and other health information for people with HIV on how to stay healthy, pregnancy, ARVs, TB, social support, and more.

TAC, 10th Floor, 85 Main Street,
Johannesburg, 2001, South Africa
+27 011 100 4721
info@tac.org.za
www.tac.org.za

WEBSITES

www.who.int/hiv

The World Health Organization, includes treatment and prevention guidelines, and HIV news articles and stories.

www.learn.tearfund.org/en/resources/publications/footsteps

100 online issues of Footsteps, Tearfund's practical newsletter with topics including HIV, caring for orphans, hygiene, sexual and gender-based violence, land rights, and others.

https://www.avert.org/public-hub

Global information and education on HIV and AIDS.

www.chiva.org.uk/resources

Children's HIV Association supports the health and well-being of children and families with HIV by providing information and reducing isolation. Resources include videos and a website designed by and for children with HIV.

PRINT AND ONLINE BOOKS

A Health Handbook for Women with Disabilities, by Jane Maxwell, Julia Watts Belser, and Darlena David, provides women with disabilities and caregivers suggestions on caring for daily

needs, healthy and safe sexual relationships, family planning, pregnancy and childbirth, and defense against violence, abuse, and stigma. 416 pages.

Where There Is No Doctor, by David Werner with Carol Thuman and Jane Maxwell, the most widely used health care manual in the world, provides vital, easy-to-understand information on how to diagnose, treat, and

prevent common diseases. An emphasis is placed on prevention, including cleanliness, diet, vaccinations, and the importance of community mobilization. 512 pages.

A Book for Midwives, by Susan Klein, Suellen Miller, and Fiona Thomson, is an invaluable training tool and practical reference for midwives and anyone concerned about care for women in pregnancy, birth,

and beyond. Discusses preventing, managing, and treating obstetric complications, covers HIV in pregnancy, birth, and breastfeeding, and has expanded information on reproductive health care. 544 pages.

Where There Is No Dentist, by Murray Dickson, shows how to care for teeth and gums at home, and in community and school settings. Detailed and illustrated information on dental equipment, placing fillings and pulling teeth, teaching hygiene and nutrition, and HIV and oral health. 248 pages.

Disabled Village Children, by David Werner, covers most common disabilities of children. It gives suggestions for rehabilitation and explains how to make a variety of low-cost aids. Emphasis is placed on how to help disabled children find a role and be accepted in the community. 672 pages.

Helping Children Who Are Blind, by Sandy Niemann and Namita Jacob, aids parents and other caregivers helping blind children from birth through age 5 develop all their capabilities. Topics include: assessing how

much a child can see, preventing blindness, moving around safely, teaching common activities, and more. 200 pages.

Helping Children Who Are Deaf, by Darlena David, Devorah Greenstein, and Sandy Niemann, aids parents, teachers, and other caregivers in helping deaf children learn basic communication skills and

a full language. It includes simple methods to assess hearing loss and develop listening skills, and explores how communities can work to help deaf children. 256 pages.

OTHER BOOKS FROM HESPERIAN

A Community Guide to Environmental Health, by Jeff Conant and Pam Fadem, will help urban and rural health promoters, activists, and community leaders take charge of their environmental health.

23 chapters address topics from toilets to toxics, watershed management to waste management, and agriculture to air pollution. Includes activities, how-to instructions to make health technologies, and dozens of stories. 636 pages.

Helping Health Workers Learn, by David Werner and Bill Bower, is an indispensable resource that makes health education fun and effective. Includes activities, techniques, and ideas for low-cost teaching aids. A people-centered

approach to health care, it presents strategies for community involvement through participatory education. 640 pages.

Health Actions for Women, by Melissa Smith, Sarah Shannon, and Kathleen Vickery, was field tested by 41 groups in 23 countries and provides a wealth of clearly explained and engagingly illustrated activities, strategies and stories that address the social obstacles and

practices that prevent women and girls from enjoying healthy lives. 352 pages.

Workers' Guide to Health and Safety, by Todd Jailer, Miriam Lara-Meloy and Maggie Robbins, makes occupational safety and health accessible to those most affected by hazards — the workers themselves. An invaluable resource for training

workers, supervisors, and safety committees, and in courses on labor relations. 576 pages.

Recruiting the Heart, Training the Brain tells the story of how Latino Health Access developed its groundbreaking promotor model of peer-to-peer outreach and education in Santa Ana, California. Facing problems such as obesity and diabetes,

exacerbated by poverty and discrimination, their strategies, advice, and accomplishments will spark hope and change across an increasingly unhealthy country. 288 pages.

Where Women Have No Doctor, by A. August Burns, Ronnie Lovich, Jane Maxwell, and Katharine Shapiro. Combines self-help medical information with an understanding of the ways poverty, discrimination, and cultural beliefs limit women's

health and access to care. An essential resource for any woman. 600 pages.

Diabetes: Beyond the Basics is for people living with diabetes, family members, health workers and those working to prevent new cases of diabetes in their communities. Adapted from the *New Where There Is No Doctor*, this booklet addresses both the

physical and social issues tied to diabetes, and provides thoughtful discussion questions for health educators and self-help groups. 52 pages.

Problems with the Eyes and Seeing: Beyond the Basics provides accessible, illustrated information on causes of eye problems and how to respond to eye injuries, treat common eye infections, and recognize when emergency help or advanced eye

care is needed. Includes a ready-to-use vision-testing chart. 44 pages.
