Please write to Hesperian or look on our website, for other editions including Albanian, Amharic, Arabic, Armenian, Aymara, Azeri, Bambara, Bengali, Burmese, Cebuano, Chichewa, Chinese, Creole, Croatian, Dari, Farsi, Filipino, French, Fulfulde, German, Gujarati, Hindi, Iban, Ibatan, Ilocano, Ilongo, Indonesian, Italian, Japanese, Jinghpaw, Kannada, Karakalpak, Kazakh, Khmer, Kirundi, Korean, Kwangali, Kyrgyz, Lao, Malagasy, Malayalam, Marathi, Miskito, Mongolian, Nepali, Oriya, Oshivambo, Pashto, Pidgin, Portuguese, Quechua, Romanian, Russian, Samoan, Sepedi, Serbian, Shan, Shuar, Sindhi, Sinhala, Somali, Swahili, Tamil, Telegu, Tetum, Thai, Tibetan, Tigrinya, Tswana, Turkish, Turkman, Tzotzil, Urdu, Uzbek, Vietnamese, and Wolof, as well as other English editions adapted for specific countries.

We are looking for ways to get this book to those it can serve best. If you are able to help or have suggestions, please contact Hesperian.
THANKS

This revision of Where There Is No Doctor has been a cooperative effort. We thank the many users of the book around the world who have written us over the years with comments and suggestions—these have guided us in updating this information.

David Werner is the author of the original Spanish and English versions of the book. His vision, caring, and commitment are present on every page. Carol Thuman and Jane Maxwell share credit for most of the research, writing, and preparation of this revised version. We are deeply grateful for their excellent and very careful work.

Thanks also to other researchers of this revised edition: Suellen Miller, Susan Klein, Ronnie Lovich, Mary Ellen Guroy, Shelley Kahane, Paula Elster, and George Kent. For information from the African edition, our thanks to Andrew Pearson and the other authors at Macmillan Publishers.

Many doctors and health care specialists from around the world generously reviewed portions of the book. We cannot list them all here, but the help of the following was exceptional: David Sanders, Richard Laing, Bill Bower, Greg Troll, Deborah Bickel, Tom Frieden, Jane Zucker, David Morley, Frank Catchpool, Lonny Shavelson, Rudolph Bock, Joseph Cook, Sadja Greenwood, Victoria Sheffield, Sherry Hilaski, Pam Zinkin, Fernando Viteri, Jordan Tapero, Robert Gelber, Ted Greiner, Stephen Gloyd, Barbara Mintzes, Rainer Arnhold, Michael Tan, Brian Linde, Davida Coady, and Alejandro de Avila. Their expert advice and help have been of great value.

We warmly thank the dedicated members of Hesperian for their help in preparing the manuscript: Kyle Craven for computer graphic arts and layout, Stephen Babb and Cynthia Roat for computer graphics, and Lisa de Avila for editorial assistance. We are also grateful to many others who helped in this book's preparation: Kathy Alberts, Mary Klein, Evan Winslow-Smith, Jane Bavelas, Kim Gannon, Heidi Park, Laura Gibney, Nancy Ogaz, Martin Busto, Karen Woodbury, and Trude Bock. Our special thanks to Keith and Luella McFarland for being there when we needed them most.

Artwork for this book was created by David Werner, Kyle Craven, Susan Klein, Regina Doyle, Sandy Frank, Kathleen Tandy, Fiona Thomson, LiHua Wang, and Mary Ann Zapalac. We also thank the following persons and groups for permission to use their artwork: Dale Crosby, Carl Werner, Macmillan Publishers (for some of Felicity Shepherd's drawings in the African edition of this book), the “New Internationalist” (for the picture of the VIP latrine), James Ogwang (for the drawings on page 417), and McGraw-Hill (for drawings appearing on pages 85 and 104 taken from Emergency Medical Guide by John Henderson, illustrated by Neil Hardy).

The fine work of those who helped create the original version is still reflected on nearly every page. Our thanks to Val Price, Al Hotti, Max Capestany, Rudolf Bock, Kent Benedict, Alfonzo Darricades, Carlos Felipe Soto Miller, Paul Quintana, David Morley, Bill Bower, Allison Orozco, Susan Klein, Greg Troll, Carol Westburg, Lynn Gordon, Myra Polinger, Trude Bock, Roger Bunch, Lynne Coen, George Kent, Jack May, Oliver Bock, Bill Gonda, Ray Bleicher, and Jesús Manjárrez.

We are grateful for financial support from the Carnegie Corporation, Flora Family Foundation, Ford Foundation, Grousebeck Family Foundation, Moriah Fund, Gladys and Merrill Muttart Foundation, Myra Polinger, the Public Welfare Foundation, Misereor, the W.K. Kellogg Foundation, the Sunflower Foundation, the Edna McConnell Clark Foundation, and West Foundation.

Finally, our warm thanks to the village health workers of Project Piaxtla in rural Mexico — especially Martín Reyes, Miguel Ángel Manjárrez, Miguel Angel Alvarez, and Roberto Fajardo, whose experience and commitment provided the foundation for this book.
INTRODUCTION

NOTE ABOUT THIS NEW EDITION

WORDS TO THE VILLAGE HEALTH WORKER (Brown Pages).......................... w1
Health Needs and Human Needs w2
Many Thing Relate to Health Care w7
Take a Good Look at Your Community w8
Using Local Resources to Meet Needs w12
Deciding What to Do and Where to
Begin w13
Trying a New Idea w15
A Balance Between People and Land w16

A Balance Between Prevention and
Treatment w17
Sensible and Limited Use of Medicines w18
Finding Out What Progress Has Been
Made w20
Teaching and Learning Together w21
Tools for Teaching w22
Making the Best Use of This Book w28

Chapter 1

HOME CURES AND POPULAR BELIEFS ..................................................... 1
Home Cures That Help 1
Beliefs That Can Make People Well 2
Beliefs That Can Make People Sick 4
Witchcraft—Black Magic—and the Evil Eye 5
Questions and Answers 6
Sunken Fontanel or Soft Spot 9

Ways to Tell Whether a Home Remedy
Works or Not 10
Medicinal Plants 12
Homemade Casts—for Broken Bones 14
Enemas, Laxatives, and Purges 15

Chapter 2

SICKNESSES THAT ARE OFTEN CONFUSED ........................................ 17
What Causes Sickness? 17
Different Kinds of Sicknesses and
Their Causes 18
Non-infectious Diseases 18
Infectious Diseases 19
Sicknesses That Are Hard to Tell Apart 20

Example of Local Names for Sicknesses 22
Misunderstanding Due to Confusion
of Names 25
Confusion between Different Illnesses
That Cause Fever 26

Chapter 3

HOW TO EXAMINE A SICK PERSON ..................................................... 29
Questions 29
General Condition of Health 30
Temperature 30
How to Use a Thermometer 31
Breathing (Respiration) 32
Pulse (Heartbeat) 32
Eyes 33
Ears 34
Skin 34
The Belly (Abdomen) 35
Muscles and Nerves 37
### Chapter 4
**HOW TO TAKE CARE OF A SICK PERSON**

- The Comfort of the Sick Person 39
- Special Care for a Person Who Is Very Ill 40
- Liquids 40
- Food 41
- Cleanliness and Changing Position in Bed 41
- Watching for Changes 41
- Signs of Dangerous Illness 42
- When and How to Look for Medical Help 43
- What to Tell the Health Worker 43
- Patient Report 44

### Chapter 5
**HEALING WITHOUT MEDICINES**

- Healing with Water 46
- When Water Is Better than Medicines 47

### Chapter 6
**RIGHT AND WRONG USE OF MODERN MEDICINES.**

- Guidelines for the Use of Medicine 49
- The Most Dangerous Misuse of Medicine 50
- When Should Medicine Not Be Taken? 54

### Chapter 7
**ANTIBIOTICS: WHAT THEY ARE AND HOW TO USE THEM**

- Guidelines for the Use of Antibiotics 56
- What to Do if an Antibiotic Does Not Seem to Help 57
- Importance of Limited Use of Antibiotics 58

### Chapter 8
**HOW TO MEASURE AND GIVE MEDICINE**

- Medicine in Liquid Form 61
- How to Give Medicines to Small Children 62
- How to Take Medicines 63
- Dosage Instructions for Persons Who Cannot Read 63

### Chapter 9
**INSTRUCTIONS AND PRECAUTIONS FOR INJECTIONS.**

- When to Inject and When Not To 65
- Emergencies When It Is Important to Give Injections 66
- Medicines Not to Inject 67
- Risks and Precautions 68
- Dangerous Reactions From Injecting Certain Medicines 70
- Avoiding Serious Reactions to Penicillin 71
- How to Prepare a Syringe for Injection 72
- How to Inject 73
- How Injections Can Disable Children 74
- How to Sterilize Equipment 74
Chapter 10
FIRST AID ................................................................. 75
Basic Cleanliness and Protection 75
Fever 75
Shock 77
Loss of Consciousness 78
When Something Gets Stuck in the Throat 79
Drowning 79
When Breathing Stops: Mouth-to-Mouth Breathing 80
Emergencies Caused by Heat 81
How to Control Bleeding from a Wound 82
How to Stop Nosebleeds 83
Cuts, Scrapes, and Small Wounds 84
Large Cuts: How to Close Them 85
Bandages 87
Infected Wounds 88
Bullet, Knife, and Other Serious Wounds 90
Emergency Problems of the Gut (Acute Abdomen) 93
Appendicitis, Peritonitis 94
Burns 96
Broken Bones (Fractures) 98
How to Move a Badly Injured Person 100
Dislocations (Bones Out of Place at a Joint) 101
Strains and Sprains 102
Poisoning 103
Snakebite 104
Other Poisonous Bites and Stings 106

Chapter 11
NUTRITION: WHAT TO EAT TO BE HEALTHY ..................... 107
Sicknesses Caused by Not Eating Well 107
Why It Is Important to Eat Right 109
Preventing Malnutrition 109
Main Foods and Helper Foods 110
Eating Right to Stay Healthy 111
How to Recognize Malnutrition 112
Eating Better When You Do Not Have Much Money or Land 115
Where to Get Vitamins: In Pills or in Foods? 118
Things to Avoid in Our Diet 119
The Best Diet for Small Children 120
Harmful Ideas about Diet 123
Special Diets for Specific Health Problems 124
Anemia 124
Rickets 125
High Blood Pressure 125
People Who Are Too Heavy 126
Constipation 126
Diabetes 127
Acid Indigestion, Heartburn, and Stomach Ulcers 128
Goiter (A Swelling or Lump on the Throat) 130

Chapter 12
PREVENTION: HOW TO AVOID MANY SICKNESSES .................. 131
Cleanliness—and Problems from Lack of Cleanliness 131
Basic Guidelines of Cleanliness 133
Sanitation and Latrines 137
Worms and Other Intestinal Parasites 140
Roundworm (Ascaris) 140
Pinworm (Threadworm, Enterobius) 141
Whipworm (Trichuris) 142
Hookworm 142
Tapeworm 143
Trichinosis 144
Amebas 144
Giardia 145
Blood Flukes (Schistosomiasis, Bilharzia) 146
Vaccinations (Immunizations)—Simple, Sure Protection 147
Other Ways to Prevent Sickness and Injury 148
Habits That Affect Health 148
Chapter 13

SOME VERY COMMON SICKNESSES ................................................................. 151

Dehydration 151
Diarrhea and Dysentery 153
The Care of a Person with Acute Diarrhea 160
Vomiting 161
Headaches and Migraines 162
Colds and the Flu 163
Sinus Trouble (Sinusitis) 165
Asthma 167
Cough 168

Bronchitis 170
Pneumonia 171
Hepatitis 172
Arthritis (Painful, Inflamed Joints) 173
Back Pain 173
Varicose Veins 175
Piles (Hemorrhoids) 175
Swelling of the Feet and Other Parts of the Body 176
Hernia (Rupture) 177
Seizures (Fits, Convulsions) 178

Chapter 14

SERIOUS ILLNESSES THAT NEED SPECIAL MEDICAL ATTENTION ........... 179

Tuberculosis (TB, Consumption) 179
Rabies 181
Tetanus (Lockjaw) 182
Meningitis 185
Malaria and Mosquito-borne Illnesses 186
Dengue, Zika, Chikungunya, Yellow Fever 187
Brucellosis (Undulant Fever, Malta Fever) 188
Typhoid Fever 188
Typhus 190
Leprosy (Hansen's Disease) 191

Chapter 15

SKIN PROBLEMS .......................................................... 193

General Rules for Treating Skin Problems 193
Instructions for Using Hot Compresses 195
Identifying Skin Problems 196
Scabies 199
Lice 200
Bedbugs 200
Ticks and Chiggers 201
Small Sores with Pus 201
Impetigo 202
Boils and Abscesses 202
Itching Rash, Welts, or Hives 203
Things That Cause Itching or Burning of the Skin 204
Shingles (Herpes Zoster) 204
Ringworm, Tinea (Fungus Infections) 205
White Spots on the Face and Body 206
Mask of Pregnancy 207
Pellagra and Other Skin Problems Due to Malnutrition 208
Warts (Verrucae) 210
Corns 210
Pimples and Blackheads (Acne) 211
Cancer of the Skin 211
Tuberculosis of the Skin or Lymph Nodes 212
Erysipelas and Cellulitis 212
Gangrene (Gas Gangrene) 213
Ulcers of the Skin Caused by Poor Circulation 213
Bed Sores 214
Skin Problems of Babies 215
Eczema (Red Patches with Little Blisters) 216
Psoriasis 216
Chapter 16
THE EYES ................................................. 217
Danger Signs 217
Injuries to the Eye 218
How to Remove a Speck of Dirt from the Eye 218
Chemical Burns of the Eye 219
Red, Painful Eyes—Different Causes 219
‘Pink Eye’ (Conjunctivitis) 219
Trachoma 220
Infected Eyes in Newborn Babies
(Neonatal Conjunctivitis) 221
Iritis (Inflammation of the Iris) 221
Glaucoma 222
Infection of the Tear Sac
(Dacryocystitis) 223

Trouble Seeing Clearly 223
Cross-Eyes and Wandering Eyes 223
Sty (Hordeolum) 224
Pterygium 224
A Scrape, Ulcer, or Scar on the Cornea 224
Bleeding in the White of the Eye 225
Bleeding Behind the Cornea (Hyphema) 225
Pus Behind the Cornea (Hypopyon) 225
Cataract 225
Night Blindness and Xerophthalmia 226
Spots or ‘Floaters’ Before the Eyes 227
Double Vision 227
River Blindness (Onchocerciasis) 227

Chapter 17
THE TEETH, GUMS, AND MOUTH .................................. 229
Care of Teeth and Gums 229
If You Do Not Have a Toothbrush 230
Toothaches and Abscesses 231
Pyorrhea, a Disease of the Gums 231

Sores or Cracks at the Corners of the Mouth 232

Other Books from Hesperian
Information About Vital Signs
This handbook has been written primarily for those who live far from medical centers, in places where there is no doctor. But even where there are doctors, people can and should take the lead in their own health care. So this book is for everyone who cares. It has been written in the belief that:

1. **Health care is not only everyone’s right, but everyone’s responsibility.**

2. **Informed self-care should be the main goal of any health program or activity.**

3. **Ordinary people provided with clear, simple information can prevent and treat most common health problems in their own homes—earlier, cheaper, and often better than can doctors.**

4. **Medical knowledge should not be the guarded secret of a select few, but should be freely shared by everyone.**

5. **People with little formal education can be trusted as much as those with a lot. And they are just as smart.**

6. **Basic health care should not be delivered, but encouraged.**

Clearly, a part of informed self-care is knowing one’s own limits. Therefore guidelines are included not only for **what to do**, but for **when to seek help**. The book points out those cases when it is important to see or get advice from a health worker or doctor. But because doctors or health workers are not always nearby, the book also suggests **what to do in the meantime**—even for very serious problems.

This book has been written in fairly basic English, so that persons without much formal education (or whose first language is not English) can understand it. The language used is simple but, I hope, not childish. A few more difficult words have been used where they are appropriate or fit well. Usually they are used in ways that their meanings can be easily guessed. This way, those who read this book have a chance to increase their language skills as well as their medical skills.

Important words the reader may not understand are explained in a word list or **vocabulary** at the end of the book. The first time a word listed in the vocabulary is mentioned in a chapter it is usually written in **italics**.

**Where There Is No Doctor** was first written in Spanish for farm people in the mountains of Mexico where, years ago, the author helped form a health care network now run by the villagers themselves. **Where There Is No Doctor** has been translated into more than 80 languages and is used by village health workers in over 100 countries.
The first English edition was the result of many requests to adapt it for use in Africa and Asia. I received help and suggestions from persons with experience in many parts of the world. But the English edition seems to have lost much of the flavor and usefulness of the original Spanish edition, which was written for a specific area, and for people who have for years been my neighbors and friends. In rewriting the book to serve people in many parts of the world, it has in some ways become too general.

To be fully useful, this book should be adapted by persons familiar with the health needs, customs, special ways of healing, and local language of specific areas.

Persons or programs who wish to use this book, or portions of it, in preparing their own manuals and activities for villagers or health workers are encouraged to do so. We often grant permission at no charge, provided the parts reproduced are distributed free or at cost—not for profit. Please see the explanation online at www.hesperian.org/about/open-copyright, or contact us at permissions@hesperian.org to answer any questions. Our goal is to help you design a program that works for you, not to make money.

For local or regional health programs that do not have the resources for revising this book or preparing their own manuals, it is strongly suggested that if the present edition is used, leaflets or inserts be supplied with the book to provide additional information as needed.

In the Green Pages (the Uses, Dosage, and Precautions for Medicines) blank spaces have been left to write in common brand names and prices of medicines. Once again, local programs or organizations distributing the book would do well to make up a list of generic or low-cost brand names and prices, to be included with each copy of the book.

This book was written for anyone who wants to do something about his or her own and other people’s health. However, it has been widely used as a training and work manual for community health workers. For this reason, an introductory section has been added for the health worker, making clear that the health worker’s first job is to share her knowledge and help educate people.

Today in over-developed as well as under-developed countries, existing health care systems are in a state of crisis. Often, human needs are not being well met. There is too little fairness. Too much is in the hands of too few.

Let us hope that through a more generous sharing of knowledge, and through learning to use what is best in both traditional and modern ways of healing, people everywhere will develop a kinder, more sensible approach to caring—for their own health, and for each other.

—D.W.
Note about this New Edition

In this revised edition of Where There is No Doctor, we have added new information and updated old information, based on the latest scientific knowledge. Health care specialists from many parts of the world have generously given advice and suggestions.

When it would fit without having to change page numbers, we have added new information to the main part of the book. (This way, the numbering stays the same, so that page references in our other books, such as Helping Health Workers Learn, will still be correct.)

The Additional Information section at the end of the book (p. 401) has information about health problems of growing or special concern: HIV and AIDS, sores on the genitals, leishmaniasis, complications from abortion, guinea worm, and others. Here also are topics such as measuring blood pressure, misuse of pesticides, drug addiction, and a method of caring for early and underweight babies.

New ideas and information can be found throughout the book—medical knowledge is always changing! For example:

- **Nutrition** advice has changed. Experts used to tell mothers to give children more foods rich in proteins. But it is now known that what most poorly nourished children need is more energy-rich foods, especially whole grains, which provide enough protein *if the child eats enough of them*. Finding ways to give enough healthy foods while avoiding “junk” and highly processed foods, is now emphasized. (See Chapter 11.)

- Advice for treatment of **stomach ulcer** is different nowadays. For years doctors recommended drinking lots of milk. But according to recent studies, it is better to drink lots of water, not milk. (See p. 129.)

- Knowledge about **special drinks for diarrhea** (oral rehydration therapy) has also changed. Not long ago experts thought that drinks made with sugar were best. But we now know that drinks made with cereals do more to prevent water loss, slow down diarrhea, and combat malnutrition than do sugar-based drinks or “ORS” packets. (See p. 152.)

- A section has been added on **sterilizing equipment**. This is important to prevent the spread of certain diseases, such as HIV. (See p. 74.)

- We have also added sections on **mosquito-borne illnesses** (p. 187), **sickle cell disease** (p. 321), **contraceptive implants** (p. 290), and using **birth control pills for emergency contraception** (p. 395).

- Page 105 contains revised information about **treatment of snakebite**.

- See page 139 for details on building the fly-killing VIP latrine.
The Green Pages now include additional medicines, including anti-retrovirals for treating HIV. Some diseases have become resistant to the medicines used in the past, so it is now harder to give simple medical advice for certain diseases—especially malaria, tuberculosis, typhoid, and sexually spread infections. Often we give several possibilities for treatment. For many infectious diseases you will need local advice about which medicines are available and effective in your area.

In updating the information on medicines, we mostly include only those on the World Health Organization’s List of Essential Drugs. (However we also discuss some widely used but dangerous medicines to give warnings and to discourage their use—see also pages 50 to 53.) In trying to cover health needs and variations in many parts of the world, we have listed more medicines than will be needed for any one area. To persons preparing adaptations of this book, we strongly suggest that the Green Pages be shortened and modified to meet the specific needs and treatment patterns in your country.

In this new edition of Where There Is No Doctor we continue to stress the value of traditional forms of healing, and have added some more “home remedies.” However, since many folk remedies depend on local plants and customs, we have added only a few which use commonly found items such as garlic. We hope those adapting this book will add home remedies useful to their area.

Community action is emphasized throughout this book. For example, today it is often not enough to explain to mothers that ‘breast is best’. Communities must organize to make sure that mothers are able to breastfeed their babies at work. Likewise, problems such as misuse of pesticides (p. 414), drug abuse (p. 418), and unsafe abortions (p. 416) are best solved by people working together to make their communities safer, healthier, and more fair.

“Health for all” can be achieved only through the organized demand by people for greater equality in terms of land, wages, services, and basic rights. More power to the people!
