Thanks

It is impossible to adequately thank all the people who made Where Women Have No Doctor a reality. This book started as a good idea shared by a small group of women and ended up as a remarkable international collaboration spanning 5 continents. Now we find ourselves wanting to thank everyone who helped, but simply listing their names does not do justice to the tremendous and generous contributions so many have made: from the groups of women who met early on to discuss topics related to women’s health care, and who later reviewed chapters we wrote based on what they told us; to others who sent us original materials or reviewed (often several times) different sections of the book; to others who wrote drafts of chapters; to the specialists in women’s health care who reviewed parts of or the entire manuscript; and to the artists—women from 23 countries—whose illustrations reflect just how diverse a project this was. We thank you all, for through your combined efforts, this book now rightfully belongs to any woman who reads or uses it.

Wholehearted thanks to the following friends of Hesperian for their work on writing specific chapters, or for contributing the time or ideas that helped complete them:

Abortion: Judith Winkler of IPAS, and Judith Tyson, Breastfeeding: Felicity Savage King, Helen Armstrong, Judy Canahuati, and Nikki Lee, Female Genital Cutting: Jane Kiragu, Leah Muuya, Joyce Ikiara, the women of Mandaale Ya Wanawake, Nahid Toubia and Zeinab Eyega of Rainbow, Grace Ebu Delano, Abdel Hadi El-Tahir; and Inman Abubakr Osman, Mental Health: Carlos Beristain, Pregnancy: Suellen Miller, Rape and Violence: Elizabeth Shradr Cox, Sex Workers: Eka Esu-Williams, Women with Disabilities: Judith Rogers, Pramila Balasundaram, and Msindo Mwinyipembe

Coordination: 2006 reprint, Pam Fadem; 2010 reprint, Jane Maxwell; 2014 reprint, Kathleen Vickery; 2018 reprint, Todd Jailer

Support for the 2010, 2012, 2014, and 2018 updates and reprints from Scilla Bennett, Jean Box, Iliaki Fernández de Reteta, Jacob Goolkasian, Shu Ping Guan, Zena Herman, Todd Jailer; Susan McCallister; Kathleen Tandy, Dorothy Tegeler; Kathleen Vickery, and Sarah Wallis. Advice from Maggie Bangser; Alan Berkman, Kathy DeRiemer; Madelyn Hamilton, Erin Harr-Yee, Ellen Israel, Jose Jerinomo, Brian Linde, Jonathan Mermin, Syema Muzaffar; Melanie Pena, Tin Tin Sint, Melissa Smith, Linda Spangler, Susan Sykes, Fiona Thomson, Lorna Thornton, Elliot Trester; Denise Tukennen, Marco Vitoria, Curt Wands-Bourdoiseau, Beverly Winikoff, and Susan Yanow; all were extremely helpful, as were the 4 authors.

In addition, we are deeply indebted to Deborah Bickel, Sara Boone, Heidi Broner, Regina Doyle, Susan Favcus, Blanca Figueroa, Sadja Greenwood, May Haddad, Richard Laing, Lonny Shavelson, Richard Steen, and Deborah Wachtel for their constant availability and selfless efforts. It’s hard to imagine what we would have done without them.

Thanks also to the following groups of women in different countries who contributed so much of their time, hearts, and minds to review these materials and enrich the book: in Bangladesh: The Asia Foundation; in Botswana: Thuso Rehabilitation Centre, Maun; in Brazil: the Association of Community Health Workers of Canal do Anil, and the health educators ofitaguai; in Cyprus, Egypt, Jordan, Lebanon, Palestine, Syria, and Yemen: the many groups of women who are members of the Arab Resource Collective; in El Salvador: the women of Morazán and Chaltenan; in Ethiopia: the groups of women who met in Addis Ababa; in Ghana: The Association of Disabled Women, Dorma Ahenkro, the schoolgirls of Wa, and the women of Korle Bu; in Honduras: the women of Urraco Pueblo; in India: CHETNKO, SEWA, Streethikarini, the women of Bilaspur, Madhya Pradesh, and the exiled women of Tibet; in Kenya: Mandaalee Ya Wanawake—from the districts of Machakos, Kitui, Kerugoya, and Murang’a—the Dagoretti Clinic Community Health Workers, the Mwakimai Self Help Group of Kisi, Crescent Medical Aid, the women of Population and Health Services (PHS) of Nairobi, and the women of VOWRI, Nairobi; in Mexico: the women of Ajoya, and the community health promoters of Oaxaca; in Nigeria: the Nigeria Youth AIDS Programme; in Papua New Guinea: the East Sepik Women and Children’s Health Project; in the Philippines: GABRIELA, HASIK, LIKKHAN, REACHOUT, and the People’s Organizations for Social Transformation; in Sierra Leone: the women of Matatie Village; in the Solomon Islands: the women of Gizo; in Uganda: the Kyakabadiima Women’s Group, and WARAILS; and in Zimbabwe: the Women’s Action Group.

And heartfelt gratitude to the countless others who gave so freely of their time and talents, especially:

The following persons and groups kindly gave us permission to use their artwork: Family Care International for numerous drawings by Regina Doyle from their book Healthy Women, Healthy Mothers: An Information Guide; Macmillan Press Ltd., for Janie Hampton’s drawing on page 60 from Healthy Living, Healthy Loving; the Environmental and Development Agency, New Town, South Africa, for the drawing on page 395 from their magazine, New Ground; Hontos Press for Akiko Aoyagi Shurtleff’s drawing on page 411 from Culinary Treasures of Japan; the Movimento de Mulheres Trabalhadoras Rurais do Nordeste for the drawing on page 17 from Que É Gênero?; and the Colectivo de Mujeres de Matagalpa and the Centro de Mujeres de Masaya for the drawing on page 338 from their manual Más allá de las lágrimas. And thanks to Connexions magazine for the story on page 339.

We also thank the following foundations and individuals for their generosity in financially supporting the project: Catalyst Foundation; Conservation, Food and Health Foundation; C.S. Fund; Domitila Barrios de Chungara Fund; Ford Foundation; Greenville Foundation; John D. and Catherine T. MacArthur Foundation; Norwegian Agency for Development Cooperation; David and Lucile Packard Foundation; San Carlos Foundation; Swedish International Development Cooperation Agency; Kathryn and Robert Schauer; and Margaret Schink. Thanks also to the many individuals who made contributions to match a Catalyst Foundation grant. Finally, a special thanks to Luella and Keith McFarland for their early support and encouragement, and to Davida Coady for believing in this project and pushing it forward during a particularly difficult time.
About this Book

This book was written to help women care for their own health, and to help community health workers or others meet women’s health needs. We have tried to include information that will be useful for those with no formal training in health care skills, and for those who do have some training.

Although this book covers a wide range of women’s health problems, it does not cover many problems that commonly affect both women and men, such as malaria, parasites, intestinal problems, and other diseases. For information on these kinds of problems, see *Where There Is No Doctor* or another general medical book.

Sometimes the information in this book will not be enough to enable you to solve a health problem. When this happens, get more help. Depending on the problem, we may suggest that you:

• **see a health worker.** This means that a trained health worker should be able to help you solve the problem.

• **get medical help.** This means you need to go to a clinic that has trained medical people or a doctor, or a laboratory where basic tests are done.

• **go to a hospital.** This means you need to see a doctor at a hospital that is equipped for emergencies, for surgery, or for special tests.

How to Use this Book

Finding information in the book

*To find a topic you want to know about*, you can use either the list of Contents or the Index.

*The Contents*, at the front of the book, lists the chapters in the order in which they appear. There is also a list of contents at the beginning of every chapter. Each topic on this list appears on the numbered page listed as a large heading (words in big, dark letters).

*The Index*, or Yellow Pages at the back of the book, lists all the important topics covered in the book, in the order of the alphabet (a, b, c, d...).

*If you do not understand the meanings of some of the words used in this book*, you may find them in the *List of Difficult Words* that starts on page 548. The first time these words appear in a chapter, they are printed in slanted letters, like this. You can also look up the word in the index to see if it is explained in another part of the book.

Many chapters end with a section called ‘Working for Change’. These sections give suggestions for working to improve women’s health in your community.
Finding information on a page

To find information on a page, first look over the whole page. You will see that the page is divided into 2 parts: a large, main column and a small column on the outside of the page. The main column gives most of the information about a topic. The small column has additional information that can help you better understand the topic.

Whenever you see a picture of a book in the small column, this means more information about a topic can be found in another part of the book. The words under the book say what the topic is. The page number on the book says where that topic can be found. If there are several topics, the book is shown once and the topics and their page numbers are listed below.

What the different things on a page mean:

Most pages have several headings. The headings in the small column give the general topic that is being discussed on that page. The headings in the main column give more specific topics.

<td>Signs of pre-eclampsia:</td>
</tr>
<tr>
<td></td>
<td>* blood pressure 140/90 or higher (see page 532 for how to take blood pressure)</td>
</tr>
<tr>

</tr>

</tr>
<tr>
<td></td>
<td>* severe pain high in the stomach</td>
</tr>
<tr>
<td></td>
<td>* dizziness</td>
</tr>
<tr>
<td></td>
<td>* blurred vision</td>
</tr>
</tbody>
</table>

What to do:
- Find someone who can check your blood pressure or check for protein in the urine. Go to a health center or hospital if necessary.
- Rest as often as possible, lying down on your left side.
- Try to eat more foods with a lot of protein every day.
- Plan to have the birth in a health center or hospital.

**IMPORTANT:** If a woman has high blood pressure and any of the other signs of pre-eclampsia, she needs medical help fast. If she is already having seizures, see page 87.

Some pages also contain medicine boxes, which look like this:

These boxes tell you the amount of medicine to give, how often to give it, and for how long. Sometimes we recommend medicines without putting them in a box. In either case, look up each medicine in the Green Pages before using it.

</tr>
<tr>
<td>If you cannot find this or are allergic to penicillin, take:</td>

</tr>
<tr>

</tr>
</tbody>
</table>

Important: If a breast infection is not treated early, it will get worse. The hot and painful swelling will feel as if it is filled with liquid (abscess). If this happens, follow the treatment described here AND see a health worker who has been trained to drain or open a breast abscess using sterile equipment.
